Contents

Volume 76 (1991)

PHYSIOLOGY AND BIOCHEMISTRY

Purification and physicochemical properties of starch phosphorylase from yam (*Dioscorea cayenensis*) by I. Hamdan and J. Diopoh (Abidjan, Ivory Coast)..... 1—7

Isolation of protoplasts from tomato fruit (*Lycopersicon esculentum*): first uptake studies by S. Fieuw and J. Willenbrink (Koln, F.R.G.)..... 9—17

Regulation of nitrate reductase by molybdenum in chloronema cell cultures of the moss *Funaria hygrometrica* by M. Padidam and M.M. Johri (Bombay, India)..... 19—28

Extraction of crassulacean acid metabolism-phosphoenolpyruvate carboxylase using aqueous two phase systems by A.B. Silva, M.C. Arrabaca and J.M.S. Cabral (Lisbon, Portugal)..... 29—34

Nuclear matrices from transcriptionally active and inactive plant cells by C. Krachmarov, L. Stoilov and J. Zlatanova (Sofia, Bulgaria)..... 35—41

Altered $^{13}NO_3^-$ influx in phosphorus limited plants by T.W. Rufty, Jr., M.Y. Siddiqi, A.D.M. Glass and T.J. Ruth (Raleigh, NC and Vancouver, Canada) 43—48

Inhibition of photosynthetic sucrose synthesis by imidodiphosphate, an analog of inorganic pyrophosphate by H.E. Neuhaus and M. Stitt (Osnabrück and Bayreuth, F.R.G.)..... 49—55

Calcium levels during the germination and seedling growth of *Cicer arietinum* L: Effect of exogenous application of calcium and cytokinins by P. Gallego, J. Hernandez-Nistal, G. Nicolas and N. Villalobos (Salamanca, Spain)..... 57—63

Purification and characterization of three chitinases and one β-1,3-glucanase accumulating in the medium of cell suspension cultures of barley (*Hordeum vulgare* L.) by K.M. Kragh, S. Jacobsen, J.D. Mikkelsen and K.A. Nielsen (Roskilde, Lyngby, Copenhagen and Heddinge, Denmark)..... 65—77

Characterization of endogenous electron donor systems to Photosystem I in green potato tuber chloroplasts by M.T. Janave, N.K. Ramaswamy and P.M. Nair (Bombay, India)..... 79—84

Enhancement of K^+ uptake through the plasma membrane in freshly cut root segments from maize seedlings pretreated with spermidine by M. de Agazio, S. Grego and F. De Cesare (Rome and Viterbo, Italy)..... 85—89

GENETICS AND MOLECULAR BIOLOGY

DNA fingerprint analysis of ornamental plants by G. Tzuri, J. Hillel, U. Lavi, A. Haberfeld and A. Vainstein (Rehovot and Bet Dagan, Israel)..... 91—97

Light inducible and tissue-specific expression of a chimeric mouse metallothionein cDNA gene in tobacco by I.B. Maiti, G.J. Wagner and A.G. Hunt (Lexington, KY)..... 99—107

M2 seed screening for nitrate reductase deficiency in *Nicotiana plumbaginifolia* by F. Pelsy, J. Kronenberger, J.-M. Pollien and M. Caboche (Versailles, France)..... 109—114

CELL AND TISSUE STUDIES IN VITRO

Interspecific somatic hybridization in potato by protoplast electrofusion by I. Serraf, D. Sihachakr, G. Ducreux, S.C. Brown, M. Allot, N. Barghi and L. Rossignol (Orsay and Gif sur Yvette, France)..... 115—126

Effects of *Helminthosporium carbonum* race 1 toxin on host and non-host cereal protoplasts by S.J. Wolf and E.D. Earle (Charlottesville, VA and Ithaca, NY)..... 127—137

Plant regeneration from cotyledonary explants of *Aesculus hippocastanum* L. by P. Profumo, P. Gastaldo, L. Bevilacqua and S. Carli (Genoa, Italy)..... 139—142

PHYSIOLOGY AND BIOCHEMISTRY

Changes in photochemical and fluorescence yields in leaf tissue from normal and starchless *Nicotiana sylvestris* with increasing irradiance
by R.B. Peterson and K.R. Hanson (New Haven, CT) ..... 143—151

Distribution of photosynthetically fixed $^{14}CO_2$ into essential oil in relation to primary metabolites in developing peppermint (*Mentha piperita*) leaves
by N.K. Srivastava and R. Luthra (Lucknow, India) ..... 153—157

Two-dimensional electrophoretic comparison of mitochondrial polypeptides from different wheat (*Triticum aestivum* L.) tissues
by R. Rios, J. de Buyser, Y. Henry, F. Ambard-Bretteville and R. Rémy (Orsay, France) ..... 159—166

Effect of penconazole and flusilazol on the tonoplast of *Acer pseudoplatanus* cells
by R. Colombo, R. Cerana and P. Lado (Milan, Italy) ..... 167—174

Properties of monoclonal antibodies to plant calmodulin
by P.P. Jablonsky, F. Grolig, J.L. Perkin and R.E. Williamson (Canberra, Australia) ..... 175—184

Partial purification and characterization of various β-glucosidases associated with cellular components of corn roots
by G. Nagahashi, J. Rao, D.L. Patterson and S.-I. Tu (Philadelphia, PA) ..... 185—191

Solubilization of a membrane-bound stimulator of 1,3-β-glucan synthase from *Saprolegnia*
by V. Girard and M. Fevre (Villeurbanne, France) ..... 193—200

GENETICS AND MOLECULAR BIOLOGY

Biochemical characterization of *cnx* nitrate reductase-deficient mutants of *Nicotiana plumbaginifolia*
by A. Marion-Poll, I. Chérel, M. Gonneau and M.-T. Leydecker (Versailles, France) ..... 201—209

Rice chitinase gene: cDNA cloning and stress-induced expression
by Y. Nishizawa and T. Hibi (Ibaraki, Japan) ..... 211—218

CELL AND TISSUE STUDIES IN VITRO

Racemic abscisic acid and abscisyl alcohol promote maturation of white spruce (*Picea glauca*) somatic embryos
by D.I. Dunstan, T.D. Bethune and S.R. Abrams (Saskatoon, Canada) ..... 219—228

Hydraulic conductivity of cell walls in sugar beet tissue
by C. Buttersack and W. Basler (Braunschweig and Hamburg, Germany) ..... 229—237

An assessment of genetic stability of potato in vitro by molecular and phenotypic analysis
by R. Potter and M.G.K. Jones (Ås, Norway and Perth, Australia) ..... 239—248

Production of iridoid glucosides in cell suspension cultures of *Penstemon serrulatus*: effects of nutritional factors
by H. Wysokinska and L. Swiatek (Lodz, Poland) ..... 249—258

Early development of douglas-fir plantlets following transfer to the greenhouse
by G.H. Mohammed and W.E. Vidaver (Burnaby, Canada) ..... 259—265

GENERAL

Monoclonal antibodies to antigens of anthers from a dioecious plant: *Asparagus officinalis* L.
by M. Bracale, M.L. Nolli, M.G. Galli, F. Raffaldi, M. Mastrodicasa, A. Falavigna and C. Soave (Milan and Varese, Italy) ..... 267—273

Book Review ..... 275—276
Subject Index Volume 76 ..... 277—279
Author Index Volume 76 281
Contents Volume 76 ..... 283—284
